Meeting Up With Those In The Know

At Centre 401 we know how much work it takes to move forward in recovery. Whether we are helping someone else at Centre 401 or working on our own quest, we call this peer work. The work we do is important.

Centre 401 is a place where we have a good sense of humour and an accepting view of each other's struggles.

We help each other all the time and we also say what needs to be said in a kind way. This is peer support. It is much more helpful to encourage each other and celebrate what is going well than to be negative.

We all have gained wisdom through our life experiences and as a group we have a large pool of knowledge to share with each other.

Wisdom through experience!

Self Help working with Peer Help

Self Help is the work a person does to take care of their own wellbeing and responsibilities in life. In challenging times each person can activate strategies to help improve their situation. We all struggle at times and all have something we are working on. Self Help is where we work to be experts in our own lives so that we have wisdom to share as fellow players in the game of life.

Peer Help is what we can offer to another person going through an experience we can relate to because of our own personal experience. Two heads are better than one!

Peer Help is grounded in the desire to help one another, but also the recognition that we need to look after ourselves as well. Believing in others does not mean we lose sight of where we are going ourselves. We honour our path and work with those who travel beside us.

Self Help backs up the Peer Help.

That they are included on the decisions made that could affect them concerning the content and the running of the centre i.e. customs followed in certain aspects, having a say, and being notified in all changes or future initiatives. It was also to combat the cultural inequity that they have had to cope within the public health system for many years. We endeavour to make a dent in those statistics.

EVENTS *Nga Takahanga*

Centre 401 has a Facebook Page and website where we post the details of upcoming events!

KAI HAKARI WEEK

The essence of the Kai Hakari Week is to look at how members and staff nourish their Hinengaro (mental wellness), Tinana (Physical wellness), Wairua (spiritual wellness) as they walk through their day at Centre 401/ Te Whare Whaa Rau Ma Tahi.

The task at hand of Kai Hakari Week is to influence all the workshops with the flavour of Kai Hakari. At the end of the week a feast is prepared to feed the people and create an environment that strengthens Whanau Ora.

MATARIKI

Matariki is the Māori name for a cluster of stars which is visible in our night sky at a specific time of the year. In June/July, Matariki will re-appear in the dawn sky – signalling the start of the Māori New Year. It is a time to celebrate new life, to remember those who've passed and to plan for the future. And it's a time to spend with whaanau and friends – to enjoy kai (food), waiata (song), taakaro (games) and haka.

Our tūpuna (ancestors) would look to Matariki for help with their harvesting. When Matariki disappeared in April/May, it was time to preserve crops for the winter season. When it re-appeared in June/July, tuupuna would read the stars to predict the upcoming season – clear and bright stars promised a warm and abundant winter while hazy stars warned of a bleak winter.

TUNE UP

Tune up is a weekend with workshops on:
Creative writing – run by an accomplished writer.
Song writing -run by experienced musicians to help you complete your songs. This event happens in the middle of the year and the music that is created can then be preformed at Mad Pride.
